# Safety regulations

## Dear Visitor

Please follow the instruction given by your host and observe the following rules:

## General safety

- Please avoid hazardous areas, suspended loads, electrical test areas as well as construction sites. Keep your distance to running machines.
- You may not enter the production halls without your supervisor.
- Suppliers must be instructed and have to wear personal protective clothes before entering the production halls.
- Smoking only at declared smoking areas.

## Photo, video and voice recording prohibited

- Please do not take any photo, video or voice recording.
- Permissions will be obtained by control office.

## Vehicles at the premises

- The general road traffic regulations are in effect at the premises. In particular be aware of ruling goods, forklift and pedestrian's traffic. Please take special care and thoughtfulness.
- All access-roads and fire-fighting areas must be kept free at all times.
- Parking only at declared parking areas.

## Access to the premises

- Access to the premises will be given by the gatekeeper. Visitors will be picked up by a supervisor.
- Where possible, use the footpath, curbs or roadsides.
- Access to electrical test areas only after special instructions from your supervisor project manager.

## Disclaimer

- In case of nonobservance of safety rules FST Industrie GmbH won't be liable for any damage.

We hope that you have an interesting stay.
