**Die FST Industrie GmbH**  
**Fertigungs-, Service- und Technologiegesellschaft für die Industrie mbH**

**Efficient constructions, high-quality products, reliable solutions**

Sophisticated technologies call for highly specialized industrial services. FST Industrie GmbH is a specialist provider for the project planning, construction and manufacture of intricate systems, e.g. re-cooling units and inverter systems.

**30 years of experience in the fields of energy and industry**

Three decades of manufacturing services for our discerning customers (such as Siemens AG, for example) do not go by without making their mark on an industrial services company: FST Industrie GmbH represents top quality and competence. National and international plant manufacturing projects realized together with our customers make us a reliable partner with a high degree of flexibility.

**Practice-oriented solutions to meet a wide range of requirements**

The portfolio of FST Industrie GmbH also includes the manufacture of devices and components where the requirements regarding quality and testing are strict, e.g. for power transmission, power distribution, power generation and large-scale drive systems, as well as the manufacture of a very wide range of special products for the processing industry, mining, rail engineering and process engineering.

**Complete solutions for industrial customers in Germany and abroad**

Power generation  
Power distribution  
Mechanical engineering and plant manufacturing  
Chemical industry  
Transport technology  
Power transmission  
Large-scale drive system manufacturers  
Petrochemistry  
Mining  
And many more

**Manufacturing service for the industry**  
**Project planning, construction, manufacturing**

For its discerning customers (such as Siemens AG, for example) FST Industrie GmbH manufactures devices and components for industrial systems where the requirements regarding quality and testing are strict. We combine our know-how with sophisticated technical components at different manufacturing stages, e.g.:

- Mechanical processing and assembly
- Welding of aluminum profiles
- Electrical wiring and testing
- Pressure testing and leakage testing

Your advantage: cost-optimized complete technical solutions from a single source. You profit from our proven flexibility. You achieve high system availability, because we apply only the highest production and quality standards.
