Die FST Industrie GmbH
Fertigungs-, Service- und Technologiegesellschaft für die Industrie mbH

Efficient constructions, high-quality products, reliable solutions

Sophisticated technologies call for highly specialized industrial services. FST Industrie GmbH is a specialist provider for the project planning, construction and manufacture of intricate systems, e.g. re-cooling units and inverter systems.

30 years of experience in the fields of energy and industry

Three decades of manufacturing services for our discerning customers (such as Siemens AG, for example) do not go by without making their mark on an industrial services company: FST Industrie GmbH represents top quality and competence. National and international plant manufacturing projects realized together with our customers make us a reliable partner with a high degree of flexibility.

Practice-oriented solutions to meet a wide range of requirements

The portfolio of FST Industrie GmbH also includes the manufacture of devices and components where the requirements regarding quality and testing are strict, e.g. for power transmission, power distribution, power generation and large-scale drive systems, as well as the manufacture of a very wide range of special products for the processing industry, mining, rail engineering and process engineering.

Complete solutions for industrial customers in Germany and abroad

Power generation
Power distribution
Mechanical engineering and plant manufacturing
Chemical industry
Transport technology
Power transmission
Large-scale drive system manufacturers
Petrochemistry
Mining
And many more

TECHNOLOGY IS OUR PASSION

FST
INDUSTRIE

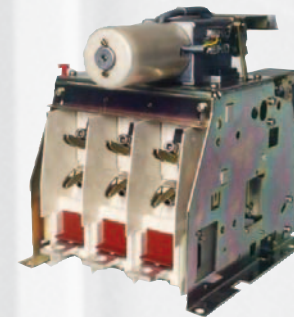

Equipment manufacturing –

Electromechanical equipment & components
We are a single-source supplier with global reach.

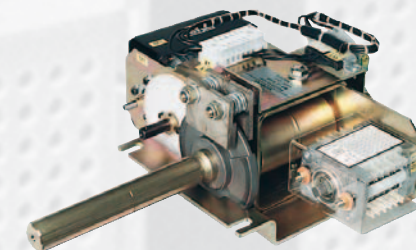

FST Industrie GmbH manufactures, tests and repairs circuit breakers, circuit breaker systems, drives and replacement parts for current limiters in direct and alternating current applications, according to your requirements. For use in classified areas, we qualify and manufacture circuit breakers according to ATEX standards, including the necessary accessories and spare parts.

FST Industrie GmbH manufactures rotary piston flow meters for a wide range of liquids. The rotary piston flow meter is a purely mechanical measuring device that guarantees the highest degree of accuracy, reliability and robustness. Both our portable and fixed meters for use in industrial applications and in the workshop have PTB type approvals for custody transfer.

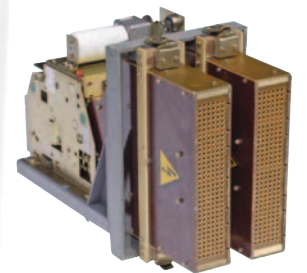

Worldwide projects in cooperation with Siemens AG are as much a part of our daily business routine as after-sales service.
